Junior Full-Stack Developer | DEC 2022 - PRESENT

- Integrated Google Maps API to work with the Open Brewery DB leading to the rollout of a fully-functional brewery locator.
- Designed a functional blog site with full CRUD capabilities using Bootstrap, MySQL, Express.js, Node.js, and Handlebars allowing users to securely create accounts.
- Contributed data structure to a user-based rating application, storing user ratings, passwords, usernames, and emails.
- Designed a personal portfolio template using semantic HTML/CSS best practices highlighting key projects.

Accenture - Music Content Operations QA Analyst | SEP 2019 – JULY 2023

- Conducted music publishing research for social media databases using foreign and domestic industry standard databases including ASCAP, BMI, SESAC, and GMR.
- Conducted comprehensive quality assurance and data analysis for 8 ad-hoc workflows spanning across a team of 60 agents.
- Assisted in the development and design of new company wide tools to better fulfill client databases.
- Experienced in high-level data management and queries leading to the rollout of new high traffic features on various global social media platforms.

303 Magazine - Music Desk Staff Writer | AUG 2017 – AUG 2020

- Developed a detailed tracking system of Denver concerts averaging 400+ events per month and 100+ events per week.
- Wrote concert reviews of national acts, local tours and interviews with key figures in the greater Denver area.
- Exercised creativity and efficiency through analysis of every aspect of musical performances and by optimizing SEO tags upon publishing.
- Experience in timely communications with PR representatives to organize press passes, photography credentials, and coverage timelines.

University of Colorado Denver - Fundraising Supervisor | JAN 2016 – NOV 2018

- Raised over \$100,000 for the university's facilities, departments and scholarship programs.
- Managed schedules for a team of 16 callers.
- Assembled nightly calling assignments based on alumni history and donation records.
- Matched student callers with major-specific alumni to maximize networking and efficiency.
- Familiarized staff with information on different colleges and programs of the university.

Hometown Colorado Initiative - Music & Arts Project Manager | AUG 2017 – AUG 2018

- Executed in-depth field research on the city of Arvada's (CO) music and arts scene.
- Designed and presented official reports to the government body for the City of Arvada.
- Interviewed local musicians, business owners, and artists to gain a higher understanding of the city's creative landscape.
- Built, designed, and planned the "Tour De Park" program featuring vendors, shops, and local musicians utilizing the city's keystone landscapes.
